Paper Cushion Packaging

The Newest Addition to the SD Family

Sanden is proud to introduce the latest addition to the SD5 & SD7 Compressor Family, **SD5S**. This new compressor features lean design catered towards optimizing weight and material, with no compromise on performance or durability.

The new SD5S14 Compressor features environmental friendly parts, with majority of the parts made from Aluminium (recyclable), and all parts are Heavy Metal Free (HMF). Styrofoam packaging material has been replaced with paper cushion design, using environment friendly material.

With extensive research and stringent test criteria, the quality and performance are validated to ensure only quality goods are delivered. The new SD5S14 Compressor provides optimum level of cooling performance and unsurpassed field durability.

Please approach your Sanden Dealer for more information.
